The June birth flower is the Rose and the Honeysuckle. In both common and leap years, no other month begins on the same day of the week as June.		In 2009 June was the 662 most popular name for girls in the USA. June is derived from Juno, the goddess of marriage. June is accordion awareness month, as well as candy, dairy, and papaya month.		The gasoline-powered automobile was patented in June of 1895. Also in June, a few years earlier (1887), the Coca-Cola bottle label was trademarked. A famous birthday, long ago, on June 7, 1502, was Pope Gregory XIII, who invented the Gregorian calendar in 1582, which is the same calendar in use today.
